一、选择题

1. 阅读下面短文, 从短文后的选项选出可以填入空白处的最佳选项。选项中有两项为多余选项。

15. (12.5 分) Not all great writers are great spellers.If you want to be published, it's vital to submit a perfect, professionally presented manuscript (原稿). (1) No editor is likely to tolerate a writer who does not take the trouble to spell words correctly.

I keep two reference books close by on my desk: dictionary and thesaurus (同义词词典). I don't trust my laptop's spellchecker. (2) Of course, these days there are plenty of online dictionaries and thesauruses, but I'm old fashioned enough to prefer a hard cover and pages I can leaf through with my fingers.I use the Concise Oxford Dictionary and the Collins Thesaurus.

(3) It should give you a precise definition of each word, thus differentiating it from other words whose meanings are similar, but not identical.It will also usually show how the word is pronounced.

In addition, I have an old two volume copy of the Shorter Oxford Dictionary, picked up a few years ago in a bookshop sale for just 99 pence.Of course, with its 2, 672 pages, it's not exactly short.It contains around 163, 000 words, plus word combinations and idiomatic phrases. (4) However, if I need to check the origin of a word or to look up examples of its usage, there's nothing better.

For well over a hundred years the most influential English dictionary was Samuel Johnson's Dictionary of the English Language published in 1755."To make dictionaries is dull (乏味)work," wrote Johnson, illustrating one definition of "dull". (5) A few minutes spent casting your eye over a page or two can be a rewarding experience.

- A.I don't often use this dictionary.
- B.It takes no account of the context.
- C.But I still don't want to replace them.
- D.But a dictionary can be a pleasure to read.
- E.Of course, a dictionary is not only for spelling.
- F.That means good grammar and no spelling mistakes.
- G.Dictionaries don't always give you enough information.

4. "I am not crazy," says Dr. William Farber, shortly after performing acupuncture (针灸) on a rabbit. "I am ahead of my time." If he seems a little defensive, it might be because even some of his coworkers occasionally laugh at his unusual methods. But Farber is certain he'll have the last laugh. He's one of a small but growing number of American veterinarians (兽医) now practicing "holistic" medicine combining traditional Western treatments with acupuncture, chiropractic (按摩疗法) and herbal medicine.

Farber, a graduate of Colorado State University, started out as a more conventional veterinarian. He became interested in alternative treatments 20 years ago when he suffered from terrible back pain. He tried muscle relaxing drugs but found little relief. Then he tried acupuncture, an ancient Chinese practice, and was amazed that he improved after two or three treatments. What worked on a veterinarian seemed likely to work on his patients. So, after studying the techniques for a couple of years, he began offering them to pets.

Leigh Tindale's dog Charlie had a serious heart condition. After Charlie had a heart attack, Tindale says, she was prepared to put him to sleep, but Farber's treatments eased her dog's suffering so much that she was able to keep him alive for an additional five months. And Priscilla Dewing reports that her horse, Nappy, "moves more easily and rides more comfortably" after a chiropractic adjustment.

Farber is certain that the holistic approach will grow more popular with time, and if the past is any indication, he may be right: Since 1982, membership in the American Holistic Veterinary Medical Association has grown from 30 to over 700. "Sometimes it surprises me that it works so well," he says. "I will do anything to help an animal. That's my job."

(1) What do some of Farber's coworkers think of him?

- A. He's odd.
- B. He's strict.
- C. He's brave.
- D. He's rude.

(2) Why did Farber decide to try acupuncture on pets?

- A. He was trained in it at university.
- B. He was inspired by another veterinarian.
- C. He benefited from it as a patient.
- D. He wanted to save money for pet owners.

(3) What does paragraph 3 mainly talk about?

A.Steps of a chiropractic treatment.

B.The complexity of veterinarians' work.

C.Examples of rare animal diseases.

D.The effectiveness of holistic medicine.

(4)Why does the author mention the American Holistic Veterinary Medical Association?

A.To prove Farber's point.

B.To emphasize its importance.

C.To praise veterinarians.

D.To advocate animal protection.

【答案】 A、C、D、A

【解析】(1) 细节理解题。根据第一段 If he seems a little defensive, it might be because even some of his coworkers occasionally laugh at his unusual methods. (如果他看起来有点防御, 那可能是因为他的一些同事偶尔会嘲笑他的不同寻常的方法。) 可知, 同事们认为他有些古怪, 故选 A。

(2) 细节理解题。根据第二段 He became interested in alternative treatments 20 years ago when he suffered from terrible back pain.He tried muscle relaxing drugs but found little relief.Then he tried acupuncture, an ancient Chinese practice, and was amazed that he improved after two or three treatments.What worked on a veterinarian seemed likely to work on his patients.So, after studying the techniques for a couple of years, he began offering them to pets.(20 年前, 当他背部疼痛难忍时, 他开始对替代疗法感兴趣。他尝试了放松肌肉的药物, 但收效甚微。然后, 他尝试了针灸, 这是一种古老的中国做法, 他惊讶地发现, 经过两三次治疗后, 他的病情有所好转。对兽医有效的方法似乎对他的病人有效。因此, 在研究了这些技术几年后, 他开始将其提供给宠物。)可知, Farber 自己作为病人从针灸上获益后, 他决定在宠物身上尝试针灸。故选 C。

(3) 段落大意题。根据第三段 Leigh Tindale's dog Charlie had a serious heart condition.After Charlie had a heart attack, Tindale says, she was prepared to put him to sleep, but Farber's treatments eased her dog's suffering so much that she was able to keep him alive for an additional five months.And Priscilla Dewing reports that her horse, Nappy, "moves more easily and rides more comfortably" after a chiropractic adjustment." (Leigh Tindale 的狗 Charlie 患有严重的心脏病。Tindale 说, Charlie 心脏病发作后, 她准备让他入睡, 但 Farber 的治疗大大减轻了她的狗的痛苦, 她能够让它再活五个月。Priscilla Dewing 报告说, 她的马 Nappy 在脊椎按摩调整后" 移动更容易, 骑行更舒适"。)可知本段主要介绍了整体医学的效果。故选 D。

(4) 推理判断题。根据最后一段 Farber is certain that the holistic approach will grow more popular with time, and if the past is any indication, he may be right: (Farber 确信, 随着时间

的推移,整体方法将越来越受欢迎,如果过去有任何迹象表明,他可能是对的:)可知, Farber 认为全面医学会随着时间推移,越来越受欢迎。Since 1982, membership in the American Holistic Veterinary Medical Association has grown from 30 to over 700. (自 1982 年以来,美国整体兽医协会的会员人数已从 30 人增加到 700 多人。)可知,作者提到美国整体兽医协会是为了证明 Farber 的观点。故选 A。

5. Is comprehension the same whether a person reads a text onscreen or on paper? And are listening to and viewing content as effective as reading the written word when covering the same material? The answers to both questions are often "no." The reasons relate to a variety of factors, including reduced concentration, an entertainment mindset (心态) and a tendency to multitask while consuming digital content.

When reading texts of several hundred words or more, learning is generally more successful when it's on paper than onscreen. A large amount of research confirms this finding. The benefits of print reading particularly shine through when experimenters move from posing simple tasks like identifying the main idea in a reading passage to ones that require mental abstraction such as drawing inferences from a text.

The differences between print and digital reading results are partly related to paper's physical properties. With paper, there is a literal laying on of hands, along with the visual geography of distinct pages. People often link their memory of what they've read to how far into the book it was or where it was on the page.

But equally important is the mental aspect. Reading researchers have proposed a theory called "shallowing hypothesis (假说)". According to this theory, people approach digital texts with a mindset suited to social media, which are often not so serious, and devote less mental effort than when they are reading print.

Audio (音频) and video can feel more engaging than text, and so university teachers increasingly turn to these technologies say, assigning an online talk instead of an article by the same person. However, psychologists have demonstrated that when adults read news stories, they remember more of the content than if they listen to or view identical pieces.

Digital texts, audio and video all have educational roles, especially when providing resources not available in print. However, for maximizing learning where mental focus and reflection are called for, educators shouldn't assume all media are the same, even when they contain identical words.

(1) What does the underlined phrase "shine through" in paragraph 2 mean?

- A. Seem unlikely to last.
- B. Seem hard to explain.
- C. Become ready to use.

D.Become easy to notice.

(2) What does the shallowing hypothesis assume?

A.Readers treat digital texts lightly.

B.Digital texts are simple r to understand.

C.People select digital texts randomly.

D.Digital texts are suitable for social media.

(3) Why are audio and video increasingly used by university teachers?

A.They can hold students' attention.

B.They are more convenient to prepare.

C.They help develop advanced skills.

D.They are more informative than text.

(4) What does the author imply in the last paragraph?

A.Students should apply multiple learning techniques.

B.Teachers should produce their own teaching material.

C.Print texts cannot be entirely replaced in education.

D.Education outside the classroom cannot be ignored.

【答案】 D、 A、 A、 C

【解析】(1)词义猜测题。根据第二段 The benefits of print reading particularly shine through when experimenters move from posing simple tasks like identifying the main idea in a reading passage to ones that require mental abstraction such as drawing inferences from a text.(当实验者从提出简单的任务(如识别阅读文章中的大意)转向需要心理抽象的任务(例如从文本中进行推理)时,平面阅读的好处尤其明显。)可知, shine through 意为”明显的”。A.Seem unlikely to last 似乎不太可能持续下去; B.Seem hard to explain 似乎很难解释; C.Become ready to use 准备好使用; D.Become easy to notice 变得容易被注意到。故选 D。

(2) 推理判断题。根据第四段第二句 Reading researchers have proposed a theory called "shallowing hypothesis (假说)."(雷丁研究人员提出了一个理论,称为”浅层假说”)可知,研究人员提出了浅层假说。根据第三句 According to this theory, people approach digital texts with a mindset suited to social media, which are often not so serious, and devote less mental effort than when they are reading print.(根据这一理论,人们以适合社交媒体的心态处理数字文本,而社交媒体通常并不那么严肃,而且与阅读印刷品相比,他们投入的脑力更少。)由此可以推知,浅层假说认为读者不能认真对待对数码文本,故选 A。

(3)细节理解题。根据第五段 Audio (音频)and video can feel more engaging than text, and so university teachers increasingly tun to these technologies say, assigning an online talk instead

of an article by the same person. (音频和视频比文本更有吸引力, 因此大学教师越来越多地使用这些技术——比如, 分配一个在线演讲, 而不是同一个人的文章。)可知, 大学老师使用越来越多的音频和视频, 因为它们能吸引学生的注意力。故选 A。

(4) 推理判断题。根据最后一段 However, for maximizing learning where mental focus and reflection are called for, educators shouldn't assume all media are the same, even when they contain identical words. (然而, 为了最大限度地提高需要集中注意力和反思的学习效果, 教育工作者不应该假设所有媒体都是一样的, 即使它们包含相同的单词。)可知, 作者在最后一段暗示在教育中打印材料不能完全被取代。故选 C。

【点评】做这类题材阅读理解时要求考生对文章通读一遍, 做题时结合原文和题目有针对性的找出相关语句进行仔细分析, 结合选项选出正确答案。做题时要在抓住关键句子的基础上合理的分析才能得出正确答案, 切忌胡乱猜测, 一定要做到有理有据。

6. In the race to document the species on Earth before they go extinct, researchers and citizen scientists have collected billions of records. Today, most records of biodiversity are often in the form of photos, videos, and other digital records. Though they are useful for detecting shifts in the number and variety of species in an area, a new Stanford study has found that this type of record is not perfect.

"With the rise of technology it is easy for people to make observations of different species with the aid of a mobile application," said Barnabas Daru, who is lead author of the study and assistant professor of biology in the Stanford School of Humanities and Sciences. "These observations now outnumber the primary data that comes from physical specimens (标本), and since we are increasingly using observational data to investigate how species are responding to global change, I wanted to know: Are they usable?"

Using a global dataset of 1.9 billion records of plants, insects, birds, and animals, Daru and his team tested how well these data represent actual global biodiversity patterns.

"We were particularly interested in exploring the aspects of sampling that tend to bias (使有偏差) data, like the greater likelihood of a citizen scientist to take a picture of a flowering plant instead of the grass right next to it," said Daru.

Their study revealed that the large number of observation only records did not lead to better global coverage. Moreover, these data are biased and favor certain regions, time periods, and species. This makes sense because the people who get observational biodiversity data on mobile devices are often citizen scientists recording their encounters with species in areas nearby. These data are also biased toward certain species with attractive or eye catching features.

What can we do with the imperfect databasets of biodiversity?

"Quite a lot," Daru explained. "Biodiversity apps can use our study results to inform users of oversampled areas and lead them to places and even species that are not well sampled. To improve the quality of observational data, biodiversity apps can also encourage users to have an expert confirm the identification of their uploaded image."

(1) What do we know about the records of species collected now?

- A. They are becoming outdated.
- B. They are mostly in electronic form.
- C. They are limited in number.
- D. They are used for public exhibition.

(2) What does Daru's study focus on?

- A. Threatened species.
- B. Physical specimens.
- C. Observational data.
- D. Mobile applications.

(3) What has led to the biases according to the study?

- A. Mistakes in data analysis.
- B. Poor quality of uploaded pictures.
- C. Improper way of sampling.
- D. Unreliable data collection devices.

(4) What is Daru's suggestion for biodiversity apps?

- A. Review data from certain areas.
- B. Hire experts to check the records.
- C. Confirm the identity of the users.
- D. Give guidance to citizen scientists.

【答案】 B、C、C、D

【解析】(1) 细节理解题。根据第一段 Today, most records of biodiversity are often in the form of photos, videos, and other digital records. (今天, 大多数生物多样性的记录通常以照片、视频和其他数字记录的形式出现。)可知, 现在收集的物种记录大多是以电子形式存在的。故选 B。

(2) 细节理解题。根据第二段 These observations now outnumber the primary data that comes from physical specimens (标本), and since we are increasingly using observational data to investigate how species are responding to global change, I wanted to know: Are they usable? (这些观察结果现在超过了来自物理标本的原始数据, 而且由于我们越来越多地使用观察数据来研究物种如何应对全球变化, 我想知道: 它们有用吗?)可知, Daru 的研究聚焦于观察数据。故选 C。

(3) 细节理解题。根据第四段”We were particularly interested in exploring the aspects of sampling that tend to bias (使有偏差) data, like the greater likelihood of a citizen scientist to take a picture of a flowering plant instead of the grass right next to it,” said Daru. (Daru 说”我们特别感兴趣的是探索取样容易产生数据偏差的方面, 比如公民科学家更有可能拍摄开花植物的照片, 而不是它旁边的草。”)可知, 导致数据偏差的原因是采样方式的不当。故选 C。

(4) 推理判断题。根据最后一段 To improve the quality of observational data, biodiversity apps can also encourage users to have an expert confirm the identification of their uploaded image. (为了提高观测数据的质量, 生物多样性应用程序还可以鼓励用户让专家确认他们上传的图像的身份。)可知, Daru 建议生物多样性应用应该给公民科学家提供指导。故选 D。
